

## **babyballet® Class Rules**

Our class rules are put in place to maximise your Child's enjoyment and development during every babyballet® class, event or production.

### **Parent/Carer/Guardian Supervision**

We ask that all Parents/Carers/Guardians supervise their children always. No Child may be left unattended while participating in Tots and Tinies Classes. To avoid overcrowding and shyness in class, one adult guardian ONLY per child is allowed into the babyballet® classroom. Your babyballet® representative will be happy for you to invite two adults per child to the end of term certificate presentation. Movers/Groovers/Tappers may be left under the supervision of the babyballet® teacher but Parents/Carers/Guardians must remain within the Class venue and must supervise all toilet trips.

### **Equipment Supervision**

*In some of our Classes, including our Tots and Tinies Classes, Movers, Groovers and Tappers Classes, babyballet may provide you (as the parent/carer/guardian) with babyballet equipment for use within the Classes. This equipment is provided to you for use with your child for the sole purpose of development and stimulation. babyballet equipment are not toys and are not for independent use without the supervision by a Parent/Carer/Guardian in applicable classes. You must supervise your child with all babyballet® equipment at all times during Classes. We ask that you are observant with children eating or chewing babyballet equipment as this can be dangerous for your child.*

### **Class Levels**

The suitable ages for the babyballet® syllabus and levels have been determined by babyballet® Limited at babyballet® Head Office. Your babyballet® representative must abide by the ages specified by Head Office to ensure the safe and effective teaching of each child. Your Child will be put in the most suitable class for their age and/or ability by the babyballet® representative. Parents/Carers/Guardians do not have the right to move children in to different classes without the prior consent of the babyballet® representative. Please note that your teacher wants each and every child to progress at a suitable pace and their decision on which class to allocate your Child to must be respected and adhered to.

### **Disabilities and Special Educational Needs**

On booking and throughout your Child's participation in the Classes, please give full and up to date details of any disabilities or special educational needs that you think We need to know about and any reasonable adjustments that would make Classes better for your Child. It is the Parent/Carer/Guardian's responsibility to notify the babyballet® representative of such disabilities or special educational needs to ensure safe and effective teaching methods and standards are maintained.

### **Siblings**

We are happy for siblings to be present in the class as a spectator. If a sibling becomes actively involved in the class, it will be necessary for you to pay the babyballet® representative for their involvement at the usual class price from time to time. If the class size is already at capacity, your child would not be able to join in. Your babyballet® representative will look for a suitable alternative Class or add your Child to the waiting list.

### **Talking During Class**

The children learn and concentrate much more when the classroom is quiet so please refrain from chatting during the class times. Adults and accompanying children will be asked to leave the room if their chatting is distracting the class.

### **Disruptive and Inappropriate Behaviour**

Children and adults in attendance at babyballet® classes are asked to be civil and courteous to other members at all times. Should a child or adult become abusive, violent or disruptive, it is at the discretion of the babyballet® representative to ask that person to leave the room, and if necessary, to vacate the premises. You are asked to consider the development and enjoyment of others. If your Child is uncontrollably upset or disruptive, please consider taking your child out of the room until they have calmed down.

### **Potty Training/Toilet Visits**

For health and safety reasons, potty training is not allowed in a babyballet® classroom. If your Child is potty trained, please take them to the toilet immediately prior to the commencement of any class so there will be as little disruption during class times.

### **Physical Contact**

Parents/Carers/Guardians should be aware that due to the nature of babyballet® classes it is necessary for the teacher to have physical contact with the children from time to time. If you would prefer a teacher not to have any physical contact with your Child please notify your babyballet® representative in writing prior to your first class.

### **Food and Drink During Class**

No food or drinks must be taken into a babyballet® classroom. If a child does require food or a drink during the class times, please take the child outside of the classroom.

### **Specific Exercises**

All the exercises used in babyballet® classes have been carefully designed to ensure safety and high standards of teaching and development. The term "naughty toes" is not suggesting any inappropriate behaviour of a child or his/her toes, it is simply a use of imagery which helps a child to relate to the exercise being performed.

### **babyballet® License**

All babyballet® classes are owned and operated under license.
